Vasanoja ?

Thursday Morning 8:30 AM.
Just got up Helen & the kids are still sleeping.
But then what's the hurry. Altho we don't
having a little darkness now, it got dark
at 11 P.M. and daylight broke again at 1:30 AM
real light at 2:45 AM. I kept on writing last night
until 2:30 this A.M. and at 3 got up and made
a note as you once asked me how our time
fired with that of yours. We are exactly
4 hrs behind you, so I know you and Ben
are eating your noon day lunch and I
have coffee with Graham Crackers & grape fruit
we are heavy on all the fruits & Cod Liver
oil that is doubt that we can get. Lemons,
Oranges, Apples & Grape fruit are the only fresh
fruits. We don't care what they cost I know
The last case of oranges were 80¢ that lasts about 34
Besides apples etc. our grocery bill is about
35¢ to 40¢ per day. But it will be less now.

while the salmon run is on
for us to consume from 105 to 217
stakes & chops a day. We got several
of Roast beef & stewed meat from the
Bureau at Nebr. & Austin Min. Bureau
gets that he must eat too and stake
little too much for him altho one of the
feeding him pork chops must say
you see none of us expect to profit
I should we get at least what we
when we can see others benefit says
of thousands of dollars. Well I'll try
coffee now and then will look some
pictures look up the mts, will give
little idea how they look. I got
writing & Ben and know you are this
included in too as you will know when
I bet Ben had a great time when you
letter from Hertha. Adios until next
