

NOTICE

IMMUNIZATION AND VACCINATION

The attitude and cooperation of nearly every Colonist has been most commendable in the past in aiding us when necessary to vaccinate or immunize against disease. We still have considerable work to do along these lines and ask for continued help.

Because very few Colonists have been immunized against Typhoid Fever we are planning to designate several homes as centers for this work, and feel that the individuals owning these places will not object to the use of their homes for this purpose.

All children over five years of age, and all adults, who have not had their immunization in the past seven years need it now.

SCHEDULE

- Camp 9...Mr. Pfeiff's or Mr. Fox's residence at 7 P.M. on Monday, September 2nd.
- Camp 8 Mr. Lemmon's or Mr. Jacobson's residence at 8:30 P. M. on September 2nd.
- Camp 1 Call at Dr. Albrecht's office between 11 & 12 noon Monday, Tuesday or Wednesday Sept. 2, 3 or 4.

Select the center most convenient and be prompt so as not to keep someone else waiting. Other camps will be taken care of as time permits. There will be no fee for this service.

(Signed) C. Earl Albrecht, M. D.

THREE SENTENCED
TO SEWARD JAIL

Three men from the Construction Corps Camp, George Charlton, Lewis Slater and Paul Deiser, were on August 26th sentenced by U. S. Commissioner Eugene J. Carr to six months in jail and a fine of \$300 each after they had entered pleas of guilty to intoxication, disturbing the peace and assault.

When passing sentence Commissioner Carr said:

"I just want to give you a little thought to carry in your mind. I wish it were within my power to sentence you to jail and horsewhip you. It is not within my jurisdiction, but it is within my jurisdiction to six months each in jail at Seward, and fine you each three hundred dollars. The \$300 fine will be suspended if you leave Alaska immediately upon your release from jail. I understand you brag of jail records. There is only one way to live, and that is to abide by the law of

the country. If there is any violation of this sentence you will go to a Federal Penitentiary for ten years."

The men had returned to the camp from Matanuska and were creating a disturbance at 2 in the morning. When James Harrigan of the Colonial Police remonstrated with them the three men jumped on him, beating him so severely that he had to have treatment from Dr. Earl E. Ostrom for contusions of the face and body.

RIFLE CLUB BEING
FORMED BY IRWIN

With Don L. Irwin's energy and enterprise behind it there is little doubt but what Palmer will soon have a rifle club that will be affiliated with the National Rifle Association of America.

Almost a hundred men have already signed up and more are coming in every day, says Mr. Irwin.

Members will be permitted purchase used Model 1917 Enfield Army rifles for \$7.50 or new guns for \$20.00. The more familiar Model 1903 Springfields will also be available at \$32.75 for new arms. No second hand guns of this type are sold.

The annual issue, free of cost to members includes 120 Ball cartridges, .30, for rifle model 1903, and 200 Ball cartridges, caliber .22, but not to exceed 20,000 to any one club. There is also an issue of 100 targets, 10,000 pasters, six short and six mid-range spotters and 10 yards of target cloth.

Mr. Irwin hopes for an active club and is looking forward to competitive matches. If a good team is developed they will have an opportunity of competing with other clubs of the N. R. A.

Drop in and see Mr. Irwin if you are interested. The fee is three dollars a year and includes besides the above named advantages and issues, a subscription to the "American Rifleman," a magazine of 64 pages devoted to the sport.

PALMER GROWS DAILY

Private enterprise is adding to the camp construction being done by the ARRC and giving Palmer an air of civic activity.

Ralph Horton's Valley City Hotel rises high above everything in the neighborhood. He expects to have furnishings in and open for guests within two weeks. Hot water and steam heat will be features that smack of bigger towns.
