

HOSPITAL NOTES

A nine pound and two ounce baby heir was born to Mrs. Johan Johnson of Tract 15 on Sunday evening. Both mother and boy doing well.

Clint De Land, brother of Edgar is doing fine after a tonsilectomy, and Teddy De Land is about ready to leave the hospital.

Donny Irwin has had his tonsils removed and the world isn't such a bright place right now. He's sure everything will be all right, though, in a few days.

Dorothy White, Kathryn Kennedy and Roberta Hemmer are all much improved.

GEORGE EMBERG BACK

George Emberg, who gave up his tract and asked for transportation for his family back to ST. Louis County, Minnesota, took the boat to Seattle, sent the children on presumably with his brother and then came back on the same ship.

He was in Anchorage the other day, but we have since heard that he flew in to Cripple Creek where it is said he has a job lined up.

The Earl of Ramsey is now the Freight Clerk at the Palmer depot, having 'bumped' Roland Pasco to a similar job in Anchorage.

FOR SALE: Two young Hampshire sows, due to farrow early August. See M. D. Snodgrass.

Wanted to buy: Davenport and 2 overstuffed chairs, straight and rocker. See Jeff Morley.

The Firemen have been out evenings trying to get a ball diamond in shape over in the Community Center Park Area. It's a tough job, but we have to have one. We have already received a Fourth of July challenge from the miners at Lucky Shot. Manager Waugh says: "We'll take 'em all on when we get going."

With Mrs. Fairman of Anchorage in charge as hostess, or 'House Mother,' the new dormitory is rapidly filling up with members of the administrative staff and teachers.

BIG HARD TIME BALL AT PALMER ON SATURDAY, MAY 23rd, UNDER THE AUSPICES OF THE COLONIAL VOLUNTEER FIRE DEPARTMENT.

DON'T MISS THIS!!!!

NOTE OF THANKS:

In behalf of my company, and of myself, I wish to take this opportunity of thanking the people of the Matanuska Valley for their fine spirit of cooperation and friendly good-fellowship.

The many NORTHERN LIFE policies which as a result have been thrown as a protecting bulwark around the families of many of you is my contribution to the normal economic development of your community.

I thank you.
